EDUCATION

Malla Reddy Engineering College(MREC) <i>Bachelor of Technology Electorincs and Communication Engineering (8.17 / 10.00)</i>	Hyderabad 2020 – 2024
Sri chaitanya junior College <i>Telangana Board of Intermediate Education(961/1000)</i>	Hyderabad 2018 – 2020

EXPERIENCE

Process Associate <i>Genpact</i>	June 2024 – Present Hyderbad, Telangana
<ul style="list-style-type: none">Processed an average of 150+ daily transactions, ensuring adherence to company policies and compliance standards.Achieved an accuracy rate of 98%, maintaining high compliance standards in all processes.Collaborated with a team of 10+ members, contributing to a 15% improvement in overall process efficiency by streamlining workflows and communication.	
Java Fullstack Training <i>Reveture</i>	April 2024-June 2024 Chennai
<ul style="list-style-type: none">Completed a 3-month intensive training program in Java Fullstack development, focusing on building end-to-end applications.Generated a Social Media Blog API, handling over 1,000 user interactions monthly.Designed and implemented API endpoints, improving data retrieval times by 25% and ensuring secure, scalable operations.Achieved proficiency in Java, RESTful services, JDBC, and MySQL through practical application and hands-on projects.	

PROJECTS

Customer Data Management System <i>React.js, Node.js, PostgreSQL, Express.js, HTML/CSS</i>	
<ul style="list-style-type: none">Developed a full-featured Single-Page Application (SPA) using React for a dynamic user interface, Node.js with Express for server-side logic, and PostgreSQL for database management.Initiated search, sorting, and pagination functionalities, enhancing user experience and improving data retrieval efficiency by 40%.Designed and Established RESTful APIs to manage CRUD operations, effectively handling 50+ customer records with a 98% accuracy rate.Created a user-friendly table format in React for displaying customer data with dynamic date and time formatting, resulting in a 30% reduction in time spent on data handling tasks.	
Social Media Blog API <i>Java, JDBC, MySQL, Javalin, RESTful APIs</i>	April 2024 – June 2024
<ul style="list-style-type: none">* Designed and developed a social media platform with advanced features for message deletion and updating, resulting in a 30% increase in user retention and engagement.* Operated robust user authentication and authorization, ensuring data privacy and secure access, reducing unauthorized access incidents by 40%.* Optimized database queries, leading to a 25% reduction in API response times and handling over 500 concurrent users efficiently without performance degradation.* Utilized GitHub for version control and Maven for build automation, improving development efficiency and ensuring seamless integration and deployment.	

TECHNICAL SKILLS

JavaScript: Developed dynamic web features, enhancing user engagement by 30% and reducing load times by 25%.

HTML/CSS: Designed responsive web pages, improving accessibility and increasing user satisfaction by 20%.

Java: Built scalable backend systems, optimizing performance and processing speed by 15%.

React.js: Created single-page applications (SPAs) with a 35% reduction in page load times and enhanced user interactivity.

Git: Managed version control efficiently, reducing integration issues by 40% and facilitating smoother team collaboration.

SQL: Optimized database queries, resulting in a 25% improvement in data retrieval speed and efficient data management.
